Where Art Meets Audio

The combinations of visual arts and sound have great synergy that can liven up the atmosphere of homes, restaurants, galleries etc. We at Audio Dream would like to combine our audio expertise with the art galleries of Gerry Thomas to provide a full experience where music meets arts. Our goal is to showcase our audio products alongside great artwork created by some of North America's most talented artist.

Meet Gerry Thomas

Internationally recognized for his action and architectural images and unique environmental portraits, Gerry Thomas has been recognized by his clients and peers for his high standard of excellence and outstanding abilities as an artist and professional Sports & lifestyle photographer.

Gerry's works have enjoyed excellent reviews from gallery exhibitions throughout the U.S. and Canada, including the Kamena Gallery and Chicago Elmhurst Art Museum. Gerry has recently opened galleries in Calgary and Edmonton, which feature his unique artistic vision of contemporary works including mixed media and glass pieces.

Virgin Airlines
General Mills
Kellogs

New Markets

Audio Dream Distributions entered the market in 2003 with the vision of expanding the market in new ways and working closely with industries that could intertwine. Starting a joint venture with Gerry Thomas gave birth to the idea of Art meets Music. The market of visual arts attracts clientele of esteemed professions and lovers of all forms of expressions.

Our goal was to introduce this market to good quality of sound that would compliment their artistic surroundings. Placing audio systems inside Gerry Thomas galleries gave synergy to the place where now great visual art would be accompanied by great musical backdrop. Over the last year events held at the galleries have allowed us to spark interest in clients towards our products and this in turn has generated greater awareness of audio. The collaboration with Gerry Thomas has been successful and we plan to expand our partnership further as Gerry enters new major cities with his renowned galleries and artwork.

Events

At the Gerry Thomas galleries you will always be entertained by events held at these extravagant venues, which are located in the heart of the art districts in our major cities.

We have been present at major events held over the past year educating, entertaining and really showing clientele what a true audio system has to offer.

Events such as Heineken art tour, Trump Real Estate, Diamonds for Divas, Calgary Architectural Association and many more have allowed us to really intrigue people into audio and all it has to offer.

The site of musicians and sports personalities have become a regular attraction at the gallery due to Gerry's vast range of clientele and we hope to continue entertaining these clients with great sound.

Masterpiece Martinis event

Trump condo(palm beach) promotional event

Cancer Fundraiser

Matthew landry from Tupelo Honey

Promotional and Customer Appreciation Event

We hold a yearly promotional customer appreciation night. This is a night where audio enthusiasts and the public in general can come and enjoy a night of great audio setups at the galleries. Our goal is to show appreciation to our dealers and clients for their support of our products and also to spark interest in audio for people who have not yet experienced a true sounding system. A night of great sound and visual art, accompanied by a glass of wine, makes this an event one to look forward to.

We learn by what we experience
